- Size: S, M, L, XL
- EN 388:2016 3121
- EN 374-1:2016 Type A
- EN 374-5:2006 Virus

Product Details

The 945 Series from Summit Glove is a fully liquid proof glove designed to provide superior protection for your hands and forearms in applications requiring higher temperature resistance. With its radiant heat protection and easy replaceable liner, this glove is ideal for cleaning hot oil fryer equipment and a wide range of kitchen work tasks. Stay safe and comfortable with the 945 Series.

Constructed with 100% neoprene material, this glove offers complete liquid proofing and can withstand radiant temperatures up to 450°F. The replaceable fabric liner, attached with Velcro, ensures optimal hygiene and extends the life of the glove. The etched finish provides a non-slip grip even in wet and oily applications.

Compliant with 21 CFR parts (170-199) for food handling, the 945 Series is available in four sizes to suit individual needs.

Features and Benefits:

- Fully liquid proof glove for hands and forearms.
- Withstands radiant temperatures up to 450°F.
- Replaceable fabric liner for enhanced hygiene and prolonged use.
- Etched finish for secure grip in wet and oily applications.
