Product Details

Summary

Often called a "bakers glove" this glove is made of thick cotton loop pile. Its' thicknes enables it to be used in low to moderate heat situations - up to 200C. It is therefore excellent for baking or manufacturing where there is moderate burn risk. The length of the glove protects beyond the hand. Fully reversible and ambidextrous. Used in many industries where there is medium heat like galvanising and powder coating.

Features and Benefits

- Made of thick cotton loop pile
- Can be used in temperatures up to 200C
- Excellent for baking or manufacturing, galvanizing and powder coating
- Protects wrists
