- FDA Approved: Yes

## Product Details

### Summary

Following the success of BLACK ARMOUR over the past 10 years, we have now released ORANGE ARMOUR. Like BLACK ARMOUR disposable nitrile gloves, ORANGE ARMOUR is produced with a formula composition specifically designed for automotive, engineering, mechanical & heavy industrial environments offering superior strength & durability.

The Hi-Vis Orange not only offers better worker visibility, but also allows identification of oil leaks in mechanical or automotive repairs. ORANGE ARMOUR comes in two different styles. The first style (DGOA) is an Orange version of the very successful BLACK ARMOUR glove that has been so popular and trusted over the years. The other style (DGOSHD) is stronger by 25% and has a grip pattern for superior hold in heavier industrial environments.

ORANGE ARMOUR is compliant for medical and food grade applications. They are ambidextrous and offer excellent skin protection from paints, dyes, chemicals and unhygienic environments. ORANGE ARMOUR is manufactured to worldwide health and hygiene standards and are powder free.
