- Liner Fabric: 4mm
- Dimensions: .735mx.5m

Product Details

Summary

A Steel mesh or Chain mesh apron provides the ultimate protection while working with sharp knives. Armour Safety have the largest range of Chain mesh aprons in New Zealand with an option that will fit all possible scenarios. All of our chain mesh products are made from Manabo mesh from Germany that is recognised as the best in the world. Each stainless steel ring in the mesh is plasma welded to provide maximum strength and a more hygienic product. All aprons come with a Food grade, heavy duty nylon rig that is fully adjustable and designed for durability, comfort and ease of use. There are 2 sizes - 25mm thickness in clear or white, and a 40mm thickness in white. All of the fittings on the aprons are of the same high quality stainless steel as the rest of the apron and are designed to enable the user to get a perfect fit for his or her own apron.
