Blade Cut 5 Sleeve With Thumb Hole - 39cm

Code: BLC5SL39

Features

- Unit: Pair
- Pack Qty: 12
- Carton Qty: 120

Product Details

If you're needing a cut-resistant food glove, then you cannot do better than our new BLADE® Cut 5 Knit Sleeve With Thumb Hole - 39cm. It uses our new high-tech 13-gauge yarn, easily the most advanced cut-resistant yarn on the market.

This glove provides exceptional protection and durability in high-cut environments. The glove's significant yarn strength allows for multiple laundering with minimal reduction in cut performance (retains level C cut protection for at least 60 washes). This means that the glove achieves significant cycle rates which reduces glove cost over time and improves cost efficiency.

Not only is this glove incredibly strong, but it's comfortable to wear. Its Thumb hole style provides better palm and wrist protection restricting sleeve sliding up the forearm. It's ambidextrous design means anyone can use this glove, and you get excellent sensitivity and dexterity without compromising on protection.

Features and Benefits

- 60 washes and still retains Cut Level C
- Newly developed 13-gauge yarn technology, making it the most advanced cut-resistant glove on the market
- Thumb hole style provides better palm and wrist protection restricting sleeve sliding up the forearm
- EU Compliance (EN1186 Part 3 certified)
- Machine washable
- Flexible, comfortable & dexterous
- Ambidextrous design
- Elastic Cuff & Seamless Knit

Applications

- Meat processing
- Food industry
- Fish processing
- Carving
