- EN 388:2016: 4141

Product Details

Armour's 13 gauge foam nitrile glove is an excellent economy glove. It has a very high abrasion performance meaning you will achieve excellent "cycle rates" saving you cost over time. The 13 gauge liner is made from a combination of spandex and nylon, allowing air transfer to pass easily from inside and outside the glove. The foam nitrile coating also breathes, allows air to pass through the coating keeping the palm cool and free from perspiration. An excellent economy glove that meets price and performance expectations.

Features and Benefits

- High abrasion performance meaning you will achieve excellent "cycle rates" saving you cost over time
- 13 gauge liner made from a combination of spandex and nylon, allowing air transfer to pass easily from inside and outside the glove
- Foam nitrile coating too allows air to pass in and out
- An excellent economy that meets price and performance expectations.
