Product Details

If you have a job that requires maximum protection for the palm and fingers then this could be the glove for you. The glove has a loosely woven, strong cotton liner and elasticised knit wrist to stop unwanted materials getting inside the glove. The liner provides some protection for the back of the hand and wrist while still allowing the glove to breathe. The palm and fingers are coated with a thick red/orange "A" grade rubber in a stippled pattern to protect in the most extreme handling conditions and provide good grip. The rubber is continued over the top of the fingers for protection and durability.

Features and Benefits

- Maximum protection gloves
- Loosely woven, strong cotton liner and elasticised knit wrist
- Palm and fingers are coated with a thick red/orange "A" grade rubber
