- Colour: Orange/Black
- EN 388:2016: 4544C
- EN 407: X2XXXX

Product Details

The Blade Cut 5 is a cut resistant glove featuring high performance cut 5 yarns and lightweight 18-gauge liner technology. It is ideal for industrial work, in both wet and dry environments.

Why would you buy this glove over competing models? To put it simply, the Blade Cut 5 offers you the protection you need, without sacrificing dexterity or comfort. It's an incredibly lightweight glove, and the 18-gauge liner technology is designed to reduce hand fatigue, so you can use the gloves for extended periods without getting sore. The sandy palm surface also gives it an excellent grip.

And in terms of protection, it meets the requirements TMD level C protection. It features a full coating of nitrile for water and oil protection and has an extended cut 5 liner for additional wrist protection. There is also extra reinforcing between the thumb and the finger for extra strength.

Sound like the sort of glove you need? Then make sure you order today.

Features and Benefits

- Lightweight 18-gauge liner technology reducing hand fatigue
- High performance cut 5 yarns for TMD level C protection
