- EN 388:2016 3241

Product Details

Introducing the Duty Utility Master Glove – precision engineered for the highest level of performance, comfort, durability, and precision handling in extreme handling environments. Augmented by anti-vibration pads, this fingerless glove dominates in pneumatic or vibration tasks that require an assured grip and feel.

The DUTY® Utility glove range brings the latest mechanical glove technologies together to ensure optimal performance, protection, and comfort in heavy handling and trade environments. We call this D-TEC. The D-TEC system harnesses advancements in high-performance glove materials and manufacturing techniques to offer a feature-rich hand protection solution tailored specifically for heavy, general, and trade working environments.

Technology Inside

impactTPR

TPR offers flexible impact protection on the back of hand

antiVIBE

Anti-Vibration pads built-in to allow an assured grip and maintain better control

velcroCLOSE

Adjustable velcro wrist closure ensures both easy hand access and a firm comfortable fit

dutySHIELD

Durable materials built-in to high contact areas for glove longevity, durability and performance

pullTABS

Cuff & finger pull tabs for easy glove donning or when removing fingerless glove styles

sweatWIPE

Terry cloth material on back of the thumb for sweat removal in hot environments
