- Colour: Black/Grey
- ANSI: ABR 4
- ANSI: CUT A2
- EN 388:2016: 4132

Product Details

Needing a tough utility glove? Then you can't go wrong with Ironclad's most popular glove.

It features Duraclad reinforcements, making it x8 more durable than normal synthetic leather. This means you get maximum durability, as it can take punishment that other glove types simply cannot handle.

Yet even with its strength, it also has an amazing tactile feel and dexterity. You won't be clumsy or cumbersome in this glove – instead, you'll be able to get all the tasks you need done with ease.

The glove also includes a hybrid cuff system, with a secure fit with a built in quick release safety feature. The glove is designed for convenience and dexterity, while still being incredibly durable.

If this sounds like something you need, then make sure you order today.

Features and Benefits

- **DURACLAD REINFORCEMENTS** x8 more durable than normal synthetic leather
- **HYBRID CUFF SYSTEM** Secure fit with built in quick release safety feature
- **TPR CUFF PULLER** Heat resistance without sacrificing dexterity
- **PATENTED PALM DESIGN** Get your glove in the proper position faster.
- **TERRY CLOTH SWEAT WIPE** Conveniently located on the back of the thumb
