- Unit: Pair
- Pack Qty: 12
- Carton Qty: 72
- Hand: Left Hand Only
- Material: Cowhide
- EN 388:2016: 4234

Product Details

Armour's heavy duty smelter glove that can handle a range of heat related environments including burning, radiant, contact, convective and molten splatter. The LGMELT is tested to withstand a large virety of welding and smelting conditions.

Features and Benefits

- Contact Heat of 350°C for 15 seconds
- Cowhide Grain leather glove.
- Elasticised, one piece back for snug fit.
- Soft grain leather provides excellent sensitivity and "feel" while the cuff is tough and strong
- Used in a wide variety of industries where a leather glove providing good feel but with a longer cuff than a driver or rigger glove is required - for example these gloves are used by a number of beekeepers. Great for pruning roses or other plants with thorns or spikes.
