- EN 388:2016: 4234

Product Details

Introducing the Armour Argon Welding Gauntlet Glove - 35cm, designed to provide superior protection and comfort in demanding work environments. This high-quality glove is expertly crafted from cowhide soft grain leather, ensuring durability and a soft, lightweight feel for maximum comfort.

Ideal for welding, engineering, foundry work, and even beekeeping or pruning thorns and spikes, this glove is versatile and reliable. The elasticized, one-piece back enhances flexibility, while the soft split leather cuff ensures added protection and comfort. The 35cm length offers extended coverage, safeguarding your hands and wrists during tough tasks.

Kevlar stitching resists burning, providing an extra layer of safety, while the glove's design promotes excellent sensitivity and feel, making it perfect for tasks requiring precision and dexterity.

Features and Benefits

- Stitched Kevlar to resist burning
- Suitable for welding, engineering, foundry work, beekeeping, pruning thorns/spikes
- Elasticized, one-piece back for enhanced flexibility
- Made from quality soft, lightweight cowhide calf grain leather
- 35cm length for extended coverage
- Certified EN 388:2016: 4234
