Code: BL29C

Features

- Unit: Pair
- Pack Qty: 10
- Carton Qty: 250
- Weight / 23 grams
- AS/NZS 1337.1:2010

Product Details

The 'best' safety glasses are the ones that fit you the best. With these Scope Baseline Overcoat glasses, you have three-point lens inclination settings and the four-point length settings on the temples, making them some of the most adjustable glasses available today.

The ability to adjust these safety glasses means they give you greater protection and comfort. A 'one-size-fits-all' model may be okay for the occasional low-risk task, but if you're needing reliable protection day-in, day-out, then you can't make compromises on safety.

The OVERCOAT is the ultimate option for workers who already wear prescription glasses but need additional eye protection in hazardous environments. The single-piece polycarbonate lens easily fits over existing frames due to its fully adjustable features, including three-point lens inclination and co-moulded thermoplastic temples, allowing a four-point length setting for a customised fit.

Features and Benefits

- Lightweight
- Fits over prescription glasses
- Co-injected rubber temples
- Moulded cheek/brow and side coverage
- Lens inclination adjustable to 3 positions
- Temple length adjustable to 4 position
- Weight / 23 grams
