Product Details

Armour Electronic Bluetooth Earmuffs are ideal for jobs where hearing protection and hands-free calling are a must. These class 5 earmuffs will protect your ears, but will also connect to almost all Bluetooth devices, including phones, tablets, and laptops. That way you can take calls or listen to music without compromising on your safety.

With these earmuffs, you get over 8 hours of battery communication time, meaning that you'll easily get a full workday out of them.

These are class 5 earmuffs, meeting the requirements for most loud and noisy worksites. If you're after a reliable set of Bluetooth earmuffs, then these will do the job. Here's everything that you're getting with the Armour Electronic Bluetooth Earmuffs:

Features and Benefits

- Portable plastic headband design to relieve pressure from a long-term wearing
- Battery communication time of more than 8 hours
- Designed with a chargeable 3.7V lithium ion battery, which only requires 3.5h for charging
- Low-power warning or low-voltage shut-down are available
- AUX input allows connection to the external devices, like MP3, smart phone or any other audio devices
- With the high-density PU foam filling the interior sound block cup layer for effective noise reduction
- Designed with soft PU cushion, helps to achieve comfortable connection between the earmuff and head, providing extra comfort and hearing protection to you
